Greetings from National Positive Psychology Association!

The National Positive Psychology Association (NPPA) in India has been dedicated to advancing scientific research in positive psychology and fostering open dialogue among researchers, educators, and practitioners in the field. This commitment led to the inception of the International Conferences on Positive Psychology in 2023. Following the success of our first two conferences, we are excited to announce the Third International Conference on Positive Psychology.

This year's theme, "Cultural Perspectives in Positive Psychology," will explore how diverse cultural viewpoints contribute to a deeper understanding of human behavior and potential.

Cultural perspectives in Positive Psychology offer a rich and nuanced understanding of human well-being by acknowledging the diversity of values, practices, and worldviews that shape people's experiences of happiness and flourishing. While Positive Psychology has historically centred on Western paradigms, integrating non-Western insights broadens its scope, challenges, assumptions, and opens new paths for growth, making the field not only more inclusive but also more relevant to the global challenges we face in fostering well-being across different communities.

Over two days, you will have the opportunity to hear from leading experts through keynote sessions, explore advanced research through abstract presentations, and participate in dynamic symposiums.

We invite you to join us for this global event, which will be held online from **March 28th to 29th, 2025**.

With regards,
Organizing Committee, NPPA

SUBMISSION GUIDELINES

- **Oral Presentations are invited for the conference**
- **Abstracts should not exceed 300 words**
- **All submissions must be original and should not have been previously accepted for publication in any journal or presented in any other conference.**
- **The abstract should be in English and structured as per the following headings: background, method, results/findings, and conclusion.**
- **The abstract must include details of all authors, particularly their name, designation, affiliation, email address, and phone number. For co-authored work, please indicate the presenter's name.**
- **Group symposium presentations are also welcome. These should be 1 hour in duration with 4-5 presenters coordinated by one symposium chair. The symposium abstract should not exceed 1000 words and should include a brief introduction followed by individual abstracts. All abstracts must include the title, authors' names, and affiliations, and should be submitted as a single document by the symposium chair.**
- **Upon acceptance of your paper/poster/symposium, the presenters are required to complete the registration process by paying the associated fee in order to present their research at the conference.**

SUBMISSION GUIDELINES

- **Please complete the registration within the stipulated date and time.**
- **For each paper/symposium presentation only the registered presenter will receive an electronic certificate having the following information: Title of the paper, presenter's name and all authors name.**
- **For abstract submission, [please click here.](#)**
- **For symposium submission, [please click here.](#)**

**PLEASE NOTE THAT ABSTRACTS SUBMITTED AFTER THE
DUE DATE WILL NOT BE ACCEPTED**

**PLEASE NOTE THAT THE DECISION OF THE SCIENTIFIC
COMMITTEE WILL BE FINAL**

REGISTRATION FEE IS NON REFUNDABLE

SUBMISSION PROCESS

- **Abstract Submission:** Participants must first submit an abstract for initial evaluation.
- **Abstract Review:** The submitted abstracts will be reviewed, and a selection will be made for presentation at the conference.
- **Research Paper submission:** Selected presented papers will be invited after the conference in the month of April 2025.
- **Presentation Selection:** After the presentations, the best ones, as determined by the organizers and academic committee, will be invited for full paper/manuscript submission.
- **Manuscript Review:** The invited manuscripts will undergo a thorough review process. Reviewers/ editors may:
 1. Accept the paper as it is.
 2. Request revisions for clarity, corrections, or edits if needed.
 3. Reject the paper if it does not meet the required standards.
- **Resubmission Opportunity:** If revisions are requested, authors will have the chance to resubmit the manuscript after addressing the required changes. Acceptance is not guaranteed if the quality standards are still not met.
- **Final Review:** Accepted papers will undergo a final review by editors for minor adjustments before proceeding to publication.
- **Decision Authority:** The editors' decisions are final at every process stage.
